

PROFESSIONAL SUMMARY

Software Engineer with 9+ years building web, mobile, and AI products. Led engineering teams and built systems serving 700K+ paying subscribers at DribbleUp and supporting \$20M in annual revenue at Budee.

EXPERIENCE

SIRO *Software Engineer*

Manhattan, NY | **June 2026 - Present**

- Built AI sales roleplay features across React Native, Next.js, and Node.js, enabling reps to practice sales conversations and managers to assign training, review attempts, and track performance
- Developed tenant-isolated MCP tools that let reps and managers query training progress, pass rates, and transcript evidence through AI chat
- Upgraded a multi-tenant iOS and Android app to React Native's New Architecture, migrating Expo, React, and native dependencies while preserving recording, calling, and offline workflows
- Improved recording reliability with iOS audio-session recovery and Android process isolation, addressing silent recordings and recording interruptions caused by main-app termination

EXPYS *Lead Software Engineer*

Manhattan, NY - Remote | **March 2025 - April 2026**

- Architected a React Native loyalty app and multi-tenant Next.js SaaS platform for enterprise clients, spanning luxury booking, CRM, inventory, product releases, and Generative AI
- Engineered a real-time AI chat system on PostgreSQL and a global AWS S3/CloudFront delivery pipeline with automated image optimization
- Developed custom MCP integrations for personalized AI workflows and analytics, reducing manual work by 80%
- Drove team adoption of AI coding tools for feature development and debugging

DRIBBLEUP *Lead Software Engineer*

Irvington, NY | **April 2022 - March 2025**

- Led development of React Native and connected-device apps serving 700K+ paying subscribers across iOS, Android, Chromecast, Fire TV, Apple Watch, and Vision Pro
- Drove end-to-end delivery for a platform generating \$50M in annual gross revenue, including Django APIs, payments, admin/CMS tooling, and Celery data pipelines
- Built integrations for four smart exercise equipment platforms and shipped social, commerce, challenge, and competition features
- Reduced native build times by 88% (60 to 7 minutes) and implemented automated E2E testing to accelerate releases

BUDEE INC. *Lead Software Engineer*

Los Angeles, CA | **July 2019 - April 2022**

- Architected a full-stack e-commerce ecosystem across React Native, React, and Node.js, driving \$20M annual revenue across 300K+ orders and 10+ sales channels
- Led a team of 4 engineers and designed self-learning inventory and zoning-based driver-routing systems
- Reduced server hosting costs by 95% through infrastructure optimization and CPU-based auto-scaling

PAYPAL *Software Engineer*

Scottsdale, AZ | **July 2017 - March 2019**

Site Stability Engineering | Core Platforms & Infrastructures

- Owned an internal query assistant used by 2,000+ engineers weekly, adding 2FA and optimizing for 30-second database recovery
- Built VM remediation tooling that enabled self-healing infrastructure and saved \$5-10M annually, plus a Python data-quality app for operational decisions

EDUCATION

ARIZONA STATE UNIVERSITY *Bachelor of Science, Computer Science*
